

August Newsletter

If you are receiving this message, it means that either I have done work for you in the past, I am doing work for you now, or you have expressed interest regarding me doing work for you in the future. If you would prefer to not receive further emails from me, please let me know about it.

Being that it is now August, I will be sending out invoices to any of you for whom I have done work in July, or for those who have not yet paid for June. Please remit your payment when you have a chance.

Media Management - There are numerous interesting and innovative ways to display your media on the internet. I see them nearly every day and, when I find something that interests me, I will make it available to others. Check the following page on my website for some new methods I have found to display images:

With the increasing availability of broadband, there is also an increasing demand for video too. We can easily set your website up to broadcast video, but please be aware that video can eat up disk space quickly. If you have a limited amount of space available to you, it might wind up costing you extra. I have access to some space on my own server and can host your media inexpensively. If you are looking to jazz up your site with different media, get in touch with me and we can discuss some solutions.

Thank you all for your business (and potential business...)
